DETAILED ACTION

Election by Original Presentation

1. Newly submitted claim 12-10 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

- I. Claims 1-4 and 6-11, drawn to an apparatus to remove 2-hexenal from ginkgo leaves, classified in class 219, subclass 678.
- II. Claims 12-19, drawn to a method for producing precursors of ginkgo extracts free from 2-hexenal, classified in class 219, subclass 707.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed in Group II can be practiced by another materially different apparatus or by hand, such as, for example the apparatus to remove 2-hexenal from ginkgo leaves which does not require a rotator.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 12-19 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

3. Claims 1-4 and 6-11 are allowed
4. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show or suggest an exhaustor comprising an extension tube of the rotator having a narrower diameter than that of the rotator as recited in claim 1-4 and 6-11.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
